Hi Kristie & Deb,

Just a note to offer you both the most heartfelt of congratulations and thanks for the absolutely superb job you both did coordinating the organisation of our community anniversary commemoration event. You listened carefully to what was put to you by the community - even some of the unreasonable requests – and with compassion, calm and professionalism set about capturing the community's wishes and the essence of the day perfectly.

The day was just perfect, and as much as was humanly possible, you met the needs of most members of the community. Everything you did was polished, professional and artfully presented. As a member of the community, I want to sincerely thank you for all your hard work, your unflappable approach and your sensitivity to a community in recovery. I know that not everyone you had to work with was always in the most reasonable frame of mind, but you always listened with respect and compassion. For that I thank you.

I hope that this email is among many that you receive in thanks for the great job you did.

Kind regards
Kathy
